On Thursday and Friday of May 28 & 29, 2009, the roofers arrived with a tremendous load of roofing equipment, covering most of 49 Harrison Ave, Wakefield, MA 01880.

They started at 7:30 AM and worked two full days. The roofers were sure footed, strong and totally efficient - no fooling around, no goofing off - dirty hard, dangerous work. I was amazed at their persistence and skill.

I have a large, seven room house, sunporch and detached garage. They also had to remove two layers of roofing, and they cleared my property of all trash.

In 1949, sixty years ago, my family moved from Melrose to Wakefield. My brother Bill O'Brien, hired Gus Burke, Tom's great grandfather, to add a roof on the present roof, (a roof-on-a roof) as they say.

We had always rented and this was our first home. The house was beautiful, but Bill felt we needed a new roof. Well, this was Bill's best

investment for the house, and Bill chose the right company for the job - BURKE ROOFERS. When Gus finished this job, the neighbors saw the difference on their homes, and soon we all had new roofs!

I am pleased to see that Tom has followed the totally professional workmanship of his great grandfather, Gus Burke, a "roofer."

My roof is now good looking and matches the color of my house. It looks like a beautiful pearl. I can hardly wait to see it fit in so perfectly with the four seasons.

Most of all, I know that my home is safe from storms and I am greatly relieved.

I recommend Thomas Burpe and Sons for all roofing needs.
